ADAPTIVE LENSES™

## CHOOSE THE TRANSITIONS® LENSES THAT SUIT YOUR LIFESTYLE.

### Transitions® everyday adaptive lenses.

Designed for indoor and outdoor wear, offering so much more than ordinary lenses.

#### NEW Transitions® Signature™ lenses.

Fully clear indoors, just the right amount of tint outdoors.

- Revolutionary *Chromea7™* technology allows the lens to be more responsive to more light conditions.
- Darker outdoors and faster fade back to clear.
- Available in grey or brown.

#### Transitions® XTRActive® lenses.

Extra active for extra protection outdoors.

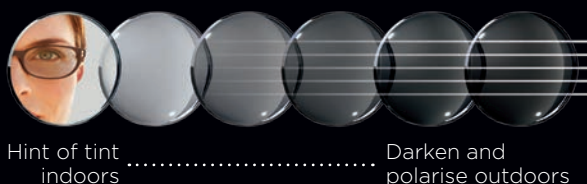

- Moderate activation behind the windscreen of a vehicle.
- Added protection against eye strain and eye fatigue.
- Comfortable hint of tint indoors, to shield eyes from harsh light.
- Available in grey.

#### Transitions® Vantage™ lenses.

Crisper, sharper vision outdoors, even in the brightest outdoor glare.

- The only lens with variable polarisation – a true technological breakthrough.
- Polarisation adjusts to match the level of outdoor glare, which can vary as the day progresses and conditions change.
- Available in grey.

### Transitions® adaptive sunglasses.

Lenses designed to respond to outdoor light conditions, to enhance vision during your favourite sports or outdoor activities.

Transitions Optical has partnered with leading brands to create a range of adaptive sunglasses that:

- go from dark to darker in varying light
- improve your distance and depth perception
- increase contrast
- reduce distracting glare.

Available in prescription and non-prescription.

## Love Them or Exchange Them.

If you don't love your new Transitions® lenses, you can simply exchange them with your receipt within 30 days of collection.

## Authentic Transitions lenses.

When you choose the best, ensure that you receive the best. Ask your Optometrist for your Certificate of Authenticity when you purchase *Transitions* brand lenses.

Adding anti-reflective (AR) coating enhances the performance of Transitions lenses even more - fade back time and indoor clarity are improved.

Ask your eyecare professional what's new with Transitions® lenses today.
