

# HT-5000 Applanation Tonometer

## Applanation Tonometer

- World standard Goldmann applanation tonometer
- Digital display makes it easy to read in a dark room
- Wide grip knob for easier adjustment of measuring prism
- Optimised algorithm realises the fast process of the IOP calculation
- Instantaneous wake-up time from sleep mode
- Slanted display matches angle of operator's view for more comfortable observation

<b>Dimensions</b>	1147mm (W) x 1177mm (D) x 1564mm (H)
<b>Table Size</b>	1147mm (W) x 450mm (D) x 30mm (T)
<b>Table Rotating Angle</b>	90°
<b>Measurement Divergence</b>	Of the force Impingement on the measuring prism over a measuring range from 0-58.84 mN
<b>Standard Divergence</b>	0.49 mN $\leq$ 3 s $\leq$ 1.5 % of rated value
<b>Reverse Span</b>	$\leq$ 0.49 mN
<b>Power Consumption</b>	DC3V
<b>Net Weight</b>	0.50kg (without accessories, with batteries)

Technical Specifications

Applanation Tonometer. Available exclusively through Opticare.
