# Universal Nut and Screw Grabber

#### Universal Nut and Screw Grabber

#### ORIGINAL...BEST...REENGINEERED TO DO MORE!

This is the driver you can't live without! As the size and shape of lock nuts proliferates so does your collection of nut drivers. How many times a day do you try driver after driver and never find one that grabs your nut?

Western has ended your search with the Universal Nut and Screw Grabber! The expandable jaw automatically grips any size or shape lock nut, hex nut, star nut, cap nut or round nut.

Extra value: two tools in one! The Universal Nut and Screw Grabber doubles as a screw starter! Placing a screw in the self-closing jaws makes it easy to thread even the smallest screw into the hardest to reach places. The more pressure you apply, the tighter the grip on the screw.

The Universal Nut and Screw Grabber is the one driver that does it all. Excellent for inserting a hinge screw when using the Spring Hinge Plier Kit (#2018).

Available in two models: solid, all-metal construction for continuous use or an injection molded plastic exterior for office use. 3-3/4" long. US Patent Application #11/833.527. Made in the USA.

#5070 Universal Nut and Screw Grabber/Laboratory Use #5075 Universal Nut and Screw Grabber/Office Use

# Standard Drivers

#### TruBlue Aluminum Drivers

Indestructible and comfortable. The industry's standard driver with a new attractive blue protective finish. Rotating cap has flat spot to prevent the driver from rolling. The blade is held in place by a steel snap ring. 4-1/4" long.

#### The Stealth Driver

The most comfortable driver ever! The head swivels and pivots to always fit securely in the palm of your hand. Ergonomic design eliminates wrist and elbow fatigue. Blade is held in place with a magnet for easy switching. Steel and brass construction. Uses all Western replacement driver blades. 4-5/8" long. US Patent #6,145,982.

#### Stiletto Power Driver

Stationary cap rotates on ball bearings yielding a smooth comfortable feel. A high power magnet holds the blade securely in place for quick blade changes. Uses standard screwdriver and nut driver blades. No Allen wrench or special driver blades required. 3-3/4" long.

#### Le Forque Driver Set

Delivers tremendous torque and stores its own supply of blades in the handle. Easy to grip heavy-duty body with removable ball bearing cap. A magnet holds the blade in place making changes quick and easy. Four blades included: flat/flat (2), Phillips and fine tip. 5" long.

#### **HEALTH TIP**

Everyone in your dispensary should be supplied with their own personal screwdriver due to health concerns with pricked fingers drawing blood.

#### Spring Clamp Screwdrivers

Reach in and grab as you unscrew the hinge, nose pad or eyewire screw. This precision driver will continue to hold the screw as you place it back into the eyewear. Comes in three blade configurations. 4-7/8" long. Fine Tip Spring Clamp Screwdriver #2051 Replacement blade #2051B

Standard Spring Clamp Screwdriver #2052 Replacement blade #2052B

Phillips Spring Clamp Screwdriver #2053 Replacement blade #2053B

# Driver Cushions / Tweezer / Replacement Blades

#### Self-Closing Fine Tip Tweezer

Springs closed instead of open! Delicate point plus sturdy stainless steel spring action holds the smallest screws securely. 6-1/4" long.

2090 - 2095

2055

#### **Get-A-Grip Driver Cushions**

Get a firmer and more comfortable grip on your driver while relieving stress on your fingers. Multiple colors for fast tool identification. Set of five foam cushions: black, red, yellow, blue and gray. Drivers not included.

#### Handles to fit every grip. Grips to fit every hand.

#### **Guild 1000**

**#1000 Series "Guild"** features a hand conforming pistol grip with spring open action.

#### Premium 2000

**#2000 Series "Premium"** features traditional symmetrical handles with or without spring-open action.

**#3000 Series "Budgetool"** has lighter weight traditional handles for a smaller grip without a spring.

#### **Concorde 5000**

**#5000 Series "Concorde"** features custom grips designed specifically for the task. Includes the **PJ Line** of parallel jaw pliers.

#### PJs 5000

PJ pliers feature jaws that close in parallel to safely and securely grip thick frames. Conventional pliers pinch thicker materials and mar the frame. PJs feature long, comfortable foam covered grips and narrow jaws. US Pat App #12/032.382.

#### **MicroTools 8000**

#8000 Series "MicroTools" Designed for professionals on-the-go. Big on function, small in size – average length is just 5".

Complies with TSA regulations and can be carried aboard aircraft.

# Choose the custom grip that's perfect for you

Vinyl grip

Thin coating of non-slip vinyl for both comfort and sensitivity.

Foam grip

A light cushion of springy foam provides maximum comfort when applying a tight grip, when cutting a screw or bending a temple end.

#### Steel grip

Non-slip sculpted and polished steel grip for maximum tactile sensitivity when you want nothing to come between you, your tool and the frame.

Parallel closing jaws grip frame securely

Why does Western use Delrin® plastic pads?

Western's exclusive Delrin dovetail pads save you time, effort and money. Delrin is a super hard plastic that outlasts softer nylon, so pads are replaced less often. Western's exclusive design eliminates screws and the probability of marring the frame. Replace a Western pad by quickly and easily sliding it into position. No aligning, drilling, tapping or screwing necessary.

Non-parallel jaws can damage thick frames

#### Shootout Frame Repair Multi-Tool Kit

Western's engineering solution that saves you time six ways: punches out hinge and eyewire screws, re-establishes a screwdriver slot in a damaged screw head, flares or peens the screw end and can replace a hinge screw with a QuikFix Rivet.

The Shootout arms you with the most power available in a hand tool. The patented lever mechanism takes a gentle squeeze and transforms it into the controlled power needed to easily eject broken screws and reduce damage to the barrel.

The Shootout is simple to align and comfortable to grip even for the smallest hands.

Kit includes precision hand tool and complete set of punches and anvils. 8 5/8" long. US Patent #6,006,410.

#### **Combo Round** Chain Nose/Delrin Plier

A "must have" tool that is a dispensary favorite! Use it to adjust the angle of the end piece without marring the frame. The 8mm wide exclusive dovetail Delrin pad protects the frame surface. The round metal jaw tapers to a fine point to fit into tight spaces.

#### Combo Flat Chain Nose/Delrin Plier

The classic combo! Use it to adjust the angle of the end piece without marring the frame. The 8mm wide dovetail Delrin pad protects the frame surface. The flat metal jaw tapers to a fine point to fit into tight areas.

# Choose the custom grip that's perfect for you

# Vinyl grip

Thin coating of non-slip vinyl for both comfort and sensitivity.

# Foam grip

A light cushion of springy foam provides maximum comfort when applying a tight grip, when cutting a screw or bending a temple end.

#### **Steel grip**

Non-slip sculpted and polished steel grip for maximum tactile sensitivity when you want nothing to come between you, your tool and the frame.

#### Wide Jaw Angling Plier

Best bet for adjusting pantoscopic tilt and temple angles on all types of frames. Opens extra wide to accommodate large temples and hinges. The recessed hole in each jaw protects the hinge screw.

2009V Vinyl

2009F Foam

2009 Premium

2009S Stainless

3009F Foam
3009 Budgetool

#### Tri-Angling Plier

Are you having trouble adjusting nylon cord rimless? Does the cord pop out of the lens' groove as you adjust the temple? The Tri-Angling Plier is the perfect tool for adjusting the temples without putting pressure on the endpiece. Use a piece of cellophane tape to protect the frame surface and then safely bring temples in or out without stressing the nylon cord or lens. An excellent tool for adjusting delicate corners or reshaping a clip-on to conform to the frame.

#### Finger Piece Plier

Securely grip the hinge or end piece on a metal frame to modify the temple angle for proper pantoscopic tilt. Lock onto metal temples with the opposing grooves in the jaws to make adjustments. Also used to grip the front of a plastic frame that has a shield. Recessed holes in the jaws protect the hinge screw.

# **Bracing Pliers**

#### Double Delrin Jaw Plier

Use to grip plastic or metal frames when bending temples or altering the eyewire. Superior Delrin pads are only 8mm wide, allowing you to get into restricted spaces. The pads are dovetailed so replacing them is quick and easy.

# Bracing / Bridge Pliers

# Non brace and whill style 1 mm. 1008V Vinyl 1008 Guild

#### Wire Bracing Plier

Non-marring jaws are grooved for a tight grip while bracing and adjusting round wire frame components and round metal temples. Great for bracing rimless while making adjustments and adjusting some pad arm styles. The Guild style features two groove diameters: 1mm and 2mm. Premium is single grooved.

Three jaws engage the bridge from above and below for extreme bridge reduction. Use to create a more comfortable fit and to reduce the PD. Useful for bending the eyewire to alter the base curve. For metal and plastic frames.

# Chain / Snipe Nose Pliers

#### Long Nose Chain Plier

Flat and smooth inside, rounded outside, these jaws are tapered to a fine point for shaping and bracing. Adjusts bridges, pad arms and temples, or simply makes picking up a screw easy.

# Chain / Snipe Nose Pliers

# **Cutting Pliers for Hard Metals**

# Enhanced Design

# Concorde Tungsten Carbide Cutters

These "top of the line" cutters combine tungsten carbide steel cutting tips with military grade superior tensile-strength stainless steel. Comfortable foam covered extra leverage handles provide precise control for nearly flush cuts. 13mm wide cutting edge and 6-1/2" long.

#### CONCORDE #5024F

**End Cutting Plier for Hard Metals** 

#### **CONCORDE #5026F**

Side Cutting Plier for Hard Metals

Side view of 5024 and 2025

5024 Concorde

Side view of 2024 and 3024

#### Oblique Head End Cutting Plier

This heavy-duty cutting plier has a 24mm long cutting edge. The head tapers to a fine point to cut screws flush in restricted areas. Use on soft metals and plastics only.

# Western says: "Know Your Cutting Pliers!"

Protect your investment in quality tools by observing their tolerance. A tool that is properly maintained should last you through many years of use.

**Check the cutting edge.** Nicks, chips or scratches indicate that your cutter is being used to cut something harder than it is supposed to cut.

**Check the handles using no pressure.** If the distance between the handles has decreased with use, too much force is being applied to the cutter. The material being cut is either harder or of a larger gauge than the cutter can handle.

**Beveled cutter blades are more durable** and produce more cuts over the life of the tool than a flush cutter. However, a bevel cut is not as close as a flush cut and leaves a more pronounced edge, or spike, on the cut screw ends.

Flush cutter blades provide a minimal edge, or spike, on the cut end of the screw. Flush cutters require less pressure to make a cut than a bevel cutter. The life of a flush cutter is shorter than that of a beveled cutting plier.

# **Cutters**

#### Side Cutting Plier

The narrow 15mm cutting edge and side cutting action gives easy access to hard to reach screws. Use only on soft metals and plastics.

#### Narrow End Flush Cutting Plier

Cutting the excess length from rimless compression tubing is easy and safe with the 5mm wide head. Rounded jaws prevent scratching the lens. Not recommended for use on metals.

# **Deblocking Pliers**

# Which Deblocking Plier is right for you?

Match up the dimensions of the raised hub on your block to the inside dimensions of the plier jaw (stated with each plier style). As various edgers use blocks from a range of suppliers, matching dimensions is the best way to determine the plier that is suitable for you. Every plier has a tension screw to adjust the grip on the block.

# Eyewire / Flaring Pliers

#### **Eyewire Forming Plier**

Delrin pads gently but firmly shape the metal eyewire to conform to the base curve of the lens. Safe to use on polyamide or lightly warmed plastic frames. Exclusive screw-free dovetail pads eliminate the bother of replacing screw-on type pads and the possibility of the screw marring the frame.

#### Narrow Eyewire and Bridge Forming Plier

The classic six base eyewire forming pad has been reconfigured to a narrow 15mm width for smaller frames. The diminutive Delrin jaw can be used to adjust the eyewire curve, alter the bridge size or adjust temple tips.

#### Screw Flaring Plier

A quick and easy way to flare the end of a hinge screw to keep it from coming out of the hinge. A sturdy, sharp point flares the end of the screw while the hole on the opposite jaw protects the screw head. Prevents lost screws and eliminates patient and dispenser inconvenience.

#### Lens Turning Plier 20mm & 25mm Curved Pads

Western keeps improving on the classics. The traditional lens turning plier or axis aligning plier is now equipped with either 25mm or 20mm round pads for smaller eyesizes. The new style pads also feature matching four base curves to reduce stress on the center of high minus, thin center lenses. The pads encapsulate the metal mounting bracket and their movement is restricted so there is no opportunity to accidentally scratch lenses. Accommodates lenses up to 90mm diameter.

# Nose Pad Adjusting Pliers

#### Round/Flat Nose Plier

Known also as a "half round" or "looping plier", this tool has many applications. The most popular use is for adjusting "American" pad arm curvature and nose pad height.

3014V Vinyl

3014F Foam

**3014 Budgetool** 

#### Nose Pad **Inserting Plier**

Stop hurting your fingers by forcing a push-in style nose pad into the box. Use this plier to gently pop the pad into place without moving either the nose pad or pad arm out of position.

**8031S Stainless 8031** MicroTool

#### Nose Pad **Popping Plier**

Quick, easy and secure way to remove push-in nose pads without changing position of pad or arm.

**8032S Stainless** 8032 MicroTool

#### **Pad Arm Curving Plier**

Put the curve back in nose pad arms in one squeeze. One jaw is concave and the other jaw fits inside so pressing the pad arm between the jaws instantly creates the proper pad arm curve.

2016V Vinyl 2016 Premium

# Nose Pad Adjusting Pliers

#### Nose Pad Adjusting Plier

The secure way to safely and easily adjust all types of nose pads. The cupped jaw for cradling the pad is matched to a slotted jaw for securely bracing the nose pad box and arm. Makes repositioning the nose pad easy. All models are specially configured for Hilco Logic® nose pads.

#### Combo Pad Arm/Nose Pad Adjusting Plier

Nose pad and nose pad arm adjusting tool all in a single plier. Specially designed jaws safely grab and adjust the nose pad and box. The unique jaw tips securely pinch the interior and the exterior of the pad arm to adjust its curvature.

# Rimless Done Right

#### Screwless Rimless Compressing/Bracing Plier

The master plier for assembling, tightening and bracing the screwless, rimless compression frames. Opposing Delrin jaws are dual grooved to cradle the metal and plastic components on both the horizontal and vertical axis, minimizing the risk of slipping and scratching the lens.

One jaw pivots to compensate for base curve so the post and tubing compress in unison. Opens extra wide for thick lenses.

#### Screwless Rimless Compressing Plier – Laboratory Use

Constructed to withstand the extra pressure of the initial assembling of compression rimless frames. Stationary Delrin jaws are dual grooved to cradle the metal and plastic components on both the horizontal and vertical axis, minimizing the risk of scratching the lens. Finger bracing handle is designed for squeezing without slipping.

2034V Vinyl

2034F Foam

2034 Premium

#### Narrow End Flush Cutting Plier

Cutting the excess length from rimless compression tubing is easy and safe with the 5mm wide head. Rounded jaws prevent scratching the lens. Not recommended for use on metals.

2089

#### Rimlon Harpoon

For easily removing/inserting the rimlon cord out from/into the lens groove.

#### Rimless Tube Refresher

The squeezing action of a tube cutter collapses the end of the tube making it difficult to get the posts into position prior to compressing. Inserting the metal point of the Tube Refresher re-establishes the proper inside dimensions and makes inserting the post easier. 3-1/2" long.

2085

# Rimless Done Right

#### Rimless Post Pulling Plier

Safely disengages the bridge and temple from compression rimless lenses. Prevents lens breakage that results from the attempt to extract the post and tubing by hand.

2020V Vinyl
2020 Premium

#### Post Pushing Plier

Easily and safely extract the post and tubing from a compression rimless lens! This simple to use tool combines tremendous pressure delicately and effortlessly applied to gently push out the post and tubing from the holes. Will not mar frames. Pins pivot easily to accommodate horizontal and vertical mounting systems. 7-1/2" long. #5021P1 optional single pin holder available.

5021S Stainless
5021 Concorde

5021 Concord

#### Rimless Tube Stripper

Effortlessly remove compressed tubing from compression posts on rimless frames. Cutting blade gap is adjustable so you cut through the tube without biting into the metal post. Slot in jaw aids in removing cut tube from post.

3027V Vinyl
3027 Budgetool

#### Rimless Bracing Plier

Fearlessly adjust a screw and nut rimless mounting without cracking the lens! Our exclusive dovetail Delrin padded jaw has a channel that holds the screw head without scratching the lens. The slotted metal jaw securely grips the glass screw at the retaining nut. With the mounting held firmly you can safely adjust the end piece, the temple, or the bridge.

# Spring Hinge / Temple and Barrel Pliers / Plier Parts

#### Spring Hinge Plier Kit

This is the one that works! This simple to use tool set allows you to extend the spring hinge barrel to hold it in the open position. The self-locking plier makes it easy to align the temple with the frame front and insert the hinge screw. Single handedly assemble those frustrating spring hinge frames in seconds.

For the ultimate in convenience use the Universal Nut and Screw Grabber (#5070 and #5075) to easily insert the hinge screw into the barrel.

2018S Stainless
2018 Premium

A range of stepped Delrin plastic arcs aid you in easily curving end pieces on temples. Obtain the most comfortable and individualized bend for your patient.

2004F Foam

2033 Premium

# Replacement Parts for Pliers

See our website for a full selection of replacement pads and parts: www.westernoptical.com

#### Barrel Aligning Plier

Quickly straighten bent barrels and correct the spacing so barrels align properly.

# Files, Chamfer and Swarf Tools

#### Screw Finishing Tool

A few twists of the cupped cap rounds off the ends of cut screws. Made of hardened carbide steel permanently mounted in a carbon steel nickel plated handle. Maximum screw diameter 1.6mm. Use to smooth the ends of cut temples smaller than 1.6mm in diameter.

#### Lens Harpoon

Use when deburring, smoothing or tapering a hole in rimless mounted lenses to prevent chipping. Diamond tipped conical point mounted in a carbon steel nickel plated handle.

#### The Swarf Removal Tool

Unique tool for removing the residue resulting from edging polycarb and Trivex lenses. Curved edges help keep the scrapping blade balanced on the edge of the lens. Fine, squared tips for cleaning out the groove of a nylon cord rimless. The Swarf is made in the USA of spring steel mounted into a carbon steel nickel plated handle.

#### Optician's Files

A Pillar File – "General purpose" file for working on flat plastic frame surfaces. Fine cut, 8" long.

#### #2070

**B** Round Rat Tail File – Use for reaming holes in rimless mountings, etc. Fine cut, 5-1/2" long.

#### #2072

C Screw Head Slotting File – Create a screwdriver blade slot in the head of a marred screw. Fine cut, 4-3/8" long.

#### #2074

**D** Screw Finishing File – Use for smoothing the end of screws. Tip comes to a fine point and is angled for easy access in hard to reach places. Medium cut, 6-7/8" long.

#### #2076

**E Zylonite File** – Use to alter the angle of the temple to the end piece on plastic frames. Coarse cut on wide side while beveled edges are smooth to prevent damage to eyewear. 7-1/2" long.

# Bench Aids, Eyewire Press, Hammer and Screw Fluid

#### Bench Anvil Kit

Provides an angled, comfortable surface on which to place a frame when inserting eyewire, hinge screws or making general repairs. Stop hunching over a rubber bench block and begin working comfortably from your tabletop. The "third hand" feature of the Bench Anvil includes three nut wrenches, one Phillips/flat screwdriver blade, riveting and cupping points, and solid anvil. 6"w x 5"h x 5"d.

#### Rubber Guard Bench Block

Rubber guard protects eyewear and countertops from damage while making frame adjustments. Screws provided for mounting. 3" long.

#### NEW!

7080

#### **Eyewire Curving Press**

The ideal way to perfectly mate the curve of the evewire to the base curve of the lens bevel. The ECP presses the curve simultaneously in the same place on the top and bottom of the eyewire. Place the eyewire between the matching 6 or 9 base curved blocks and screw closed. Tighten less for other variations in base curves. The ECP is also used to narrow the bridge for a better fit and to reduce the frame DBL. 3"w x 7.5"h x 3.25"d.

#### Riveting Hammer

Classically constructed with a hardwood handle and forged steel head. 9-3/4" long and 3" head.

#### Screw Loosening Fluid

Got a screw set in so tightly that you are afraid that any more pressure will strip the screw driver slot and create more problems? Try a drop of this specially formulated screw loosening fluid. The fluid is designed to flow between the threads to make it easier to break the bonds. 6cc applicator.

2174

#### **Dispensing Tool Case**

Easily holds twelve pliers in addition to lens clock, files and five drivers. Velcro strips hold pliers in place. Pockets hold lens clock, files and drivers. Zipper closure and convenient carrying handle. Tools not included. 21-3/4"w x 12"d open.

2172

#### Canvas Tool Pouch

A compact case designed to comfortably hold six pliers and plenty of drivers and small parts. Made of sturdy canvas with a hand carrying strap. Measures approximately 13-3/4"w x 12"h when open and only 3-1/2"w x 12"h when rolled closed. Tools not included.

# Acrylic Tool and Screw Rack

Get organized with our functional and attractive countertop rack. Holds pliers, drivers, files, rules, lens clock and eight vials of screws, blades, etc. Clear acrylic. Tools not included. 11"w x 6"h x 6"d.

2178

#### Magnetic Tool Bar

Reclaim valuable counter space by utilizing our stylish white and silver tool bar. Strong magnetic grip holds tools securely. Mounting screws provided. Tools not included. 12" long.

#### **Tool Magnetizing Tower**

**Totally Cool! Charge Your Tool!** The steel used to make pliers and driver blades cannot be permanently magnetized. Western's TMT is the easy and efficient way to continuously provide a magnetic charge to drivers, tweezers, pliers and the Universal Nut and Screw Grabber to pick up those small screws and findings that are attracted to a magnet. Holds 12 tools (not included). Measures 2-1/2" h x 3" diameter. A Western exclusive!

# Measuring Instruments

2060WM

#### Wide Mouth Lens Caliper

Measures up to 25mm thick lenses in 1/5mm graduations. Easy to calibrate. Precision constructed of stainless steel and brass. 7-1/2" long.

2068BT

#### **Ball Tipped Lens Clock**

A great buy! Provides precise curvature measurements on glass and plastic lenses. Rounded steel tips prevent scratched lenses. +\-20 diopters. Adjustable calibration.

Enhanced Design

2068

#### Gem Tipped Lens Clock

Provides precise curvature measurements on glass and plastic lenses. Ball tipped with rolling sapphires to prevent scratched lenses. +/-20 diopters. Adjustable calibration.

2060

#### Lens Thickness Gauge

Constructed of corrosion resistant brass and stainless steel. Has extra deep and extra wide jaws for use on lenses up to 86mm in diameter and 15mm thick. Scale is in 10th millimeter increments. Soft spring and Delrin tipped jaws protect lens material. 7-3/8" long.

Rx Verifier

WESTERN

Use the removable grid on the clear acrylic background to measure seg heights, binocular PD and verify that the segs are straight.

#### Monocular Manual Pupilometer

A quick way to take accurate measurements of a patient's monocular and binocular interpupillary distance (PD). The higher the prescribed lens power, the greater the need for precise PD measuring. Reduces costly do-overs due to inaccurate measuring. All polycarbonate construction.

Complete with easy to follow instructions.

# **Measuring Instruments**

#### The DigiOmeter Digital Pupilometer

The DigiOmeter provides digital accuracy when measuring interpupillary distance (PD). Measurement options include PD and right/left monocular distance. This instrument measures the distance between the pupils focusing on the light spot reflecting off the patient's retina. Using a highly accurate linear sensor, the reflection is bisected vertically to take the reading. This pupilometer features an easily visible wide-angle LCD numeric readout. It's easy, user friendly function eliminates operator error and increases measuring accuracy.

#### **SPECS**

Data range: Binocular PD 46-82mm, Monocular PD 23-41mm Distance Range: 300-infinity Indication, Rounding and Asymmetric Error: <.5mm Power Source: DC6V (four AA batteries) Automatic Off: After 2 minutes on standby Size: 232mm length x 163mm width x 71mm height Weight: 28 oz.

#### PD Rules

A 7" Dispensing PD Rule – Millimeter markings read in the same direction for accurate seg height and PD measurements. 7-1/4" long by 11/16" wide. #2063

**B** 6" White Plastic PD Rule – Sturdy white plastic with both millimeter and inch scales in black. Beveled for comfort. 6-1/4" long by 37/64" wide. #2064

C 7" Laboratory Millimeter Rule – The ends of this rule are notched for easy and accurate eyewire readings. White numbers on red field run in opposition so that the rule always reads in the correct direction. Increases accuracy and eliminates fumbling. 7-1/4" long by 11/16" wide.

#2065

D 6" Stainless Steel PD Rule – Flexible steel with engraved millimeter scales. Tapered end fits into eyewire groove for accurate readings. 6-1/4" long by 15/32" wide.

#2066

E The PD Extender – Accurately measures bifocal placement from the pupil to the lowest point on the eyewire. Great for taking box measurements. Minimizes miscommunication with the lab. Clear plastic with black scale. 7" long. #2067/5 (set of five)

**F** PD³ Multi-Rule – Three rules PLUS a pinhole occluder. Use the scales on this rule to measure binocular PD, monocular PD, seg height, bridge, DBL of frame and eyewire A and B dimensions. A pinhole occluder tests visual acuity. 7-3/8" long by 1" wide.

#2069

#### Frame Warmers

#### PrimeAir Frame Warmer

Compact and quiet unit delivers a blast of heated air to your frame moments after activating the solid-state electronics. Full temperature and air speed range allows you to use the proper heat setting for trouble free adjustments. Includes hot air concentrator for spot heating on frames. 3-year Warranty. Made in Italy.

#### **Specifications:**

Temperature range: 180° F to 325° F

Air speed: Variable

**Voltage:** 115 volt **Watts:** 1000 **Amps:** 9 **Dimensions:** 8"w x 8-1/2"h x 5-3/4"d

#2400

#### Hot Box Frame Warmer

The industry favorite for over 25 years! Its flawless performance, proprietary design and construction have made it the most popular frame warmer in America. New injection molded housing for a smaller footprint on your counter.

#### **Hot Box Frame Warmer features:**

HOT: Maximum temperature 400°F.

**BIG:** Inner pan dimensions 9"w x 2-3/4"h x 5"d.

**CLEAN:** Recessed pan is sealed in place so that glass beads or salt will not spill on countertop.

**LONG LIFE:** Electrical components are shielded from contamination by bead or salt spills.

**PLUS:** Adjustable temperature control, indicator light, 4' grounded power cord and rubber feet.

Voltage: 115 volt Watts: 200 Amps: 1.75

#### **Dimensions:**

10-5/8"w x 4-1/4"h x 6-1/2"d.

#### #2500

#2500Export (220 volt)

# #2600 #2650

#### Glass Beads

The clean way to evenly transfer heat to frame surface. Each five-pound container fills the Hot Box to the proper level.

#### #2600 Regular

#2650 Extra Large 2.0-2.3mm

# Ultrasonic Cleaner / Polariscope / Lens Tinting

#### Biodegradable Ultrasonic Cleaning Solution

Ultrasonic cleaning units perform more effectively and efficiently with this biodegradable cleaning agent. Removes dust, dirt, oil and residue from lenses, bevels and spectacles. Frames and lenses do not need to be rinsed before drying. Use only a few drops per tank. 4 oz. concentrate.

#### Aqua-Sonic Ultrasonic Cleaner

Industrial power in a small package. Complete with a three minute automatic shut-off timer and stainless steel bath. 42,000Hz energy wave output frequency at 35 watts. ETL approved. Outer housing: 5-1/2"w x 5"h x 8"d. Bath: 3-3/4"w x 1-5/8"h x 6"d. 115 volts.

#### GR8★Tint Replacement Parts

Quart Stainless Steel Tank 4-1/4"w x 4"h x 6-7/8"d

#6058

**Quart Stainless Steel Lid** 4-1/4"w x 6-5/8"h

#6059

**Precision Glass Thermometer** 8-1/2" long.

#6066

Tank Spacer Bar #6068

#### **Dual Lens Clamps**

Stainless steel and high temperature Delrin are combined for ease of use and long life. Spring loaded to simplify insertion and removal of lenses. 7" long.

#6055 Black

#### UV Lens Clamp

Use solely in your UV dye bath to prevent contamination. 7" long.

#6056 White

#### Illuminated Polariscope

Compact bench top model that you can hold in your hand. Use for viewing stress patterns in lenses or for determining polarity in polarized lenses. Operates using two AA batteries (included). 2-3/4"w x 2-3/4"h x 4"d.

7060

# Shop Trays / Polishing / Patterns

#### Tray Tags

#### Disposable

500 white card stock tags. Use twice and discard. 3-1/4"w x 1"h.

#2114

#### Reusable

100 white plastic tags with dry erase marker. 3-1/4"w x 1"h.

#2115

#### Plastic Stackable Shop Trays

Extra sturdy laboratory/dispensing trays in six colors. Stacked trays interlock for secure transporting. Large tray tag slot for easy reference. Trays packaged 12 or 24 per single color case. 6-1/8"w x 1-5/8"h x 9-1/8"d.

Yellow	#2116/12	Yellow	#2116/24
White	#2118/12	White	#2118/24

Green	#2122/12	Green	#2122/24
Blue	#2124/12	Blue	#2124/24
Case of 12		Case of	24

#### Click 'n Stack Extra Deep Nesting Trays

These new trays interlock and can be used with conventional 6" x 9" trays. They are 2-1/4" deep to accommodate wrap-around eyewear and eyeglass cases. The base of the tray has indentations for capturing small parts.

Western's new Click 'n Stack tray nests one inside the other because the sides are removed for shipping. The tray is easily assembled by snapping the sides into place. Boxed 20 trays per color.

#### Available in five new contemporary colors:

Yellow	#2140/20	Green	#2146/20	Case of 20
White	#2142/20	Blue	#2148/20	

Not returnable once assembled.

#### **Polishing Rouge**

#### **Crystal Kleer Rouge**

Rouge of choice for over 50 years for buffing out imperfections and polishing plastic frames. Traditional favorite for polishing the edge of plastic and hi-index lenses. 5"w x 1"h x 1"d.

#4106

#2144/20

#### Pattern Blanks

For all makes of automatic and manual pattern makers. Available in three types of quality virgin material and in two sizes. All patterns have raised millimeter markings. Materials can be cut clean by pattern maker cutting blade, router blade or by using hand sheers. Large: 63mm x 54mm x1.65mm Oversize: 80mm x 65mm x 1.65mm

Red

Clear Styrene – Large / Oversize Facilitates tracing of lens or eyewire from a paper pattern.

#4000 Oversize (pkg. 100) #4001 Large (pkg. 100)

#### Industrial Strength – Large / Oversize

Natural color virgin ABS plastic. For edgers with heavy head pressure or for patterns that will be used repeatedly.

#4002 Oversize (pkg. 100) #4003 Large (pkg 100)

#### Original Material - Large / Oversize

White virgin, high impact styrene. Will not crush or bend when used on edgers with normal head pressure.

#4004 Large (pkg. 100) #4006 Oversize (pkg. 100)

# Tinted Lens Displays

Lens Ladder

Clear acrylic steps for 8 lenses in a compact area. 1-7/8"w x 7-3/4"h x 7-1/4"d. Lenses not included.

#10039

#### Table Top Tint Tray

Convenient size fits everywhere and displays 15 easy to remove lens samples. Polished clear acrylic. 12"w x 2"h x 6-1/2"d. Lenses not included.

#10044

#### Jacob's Ladder

Stepped clear acrylic riser for 10 lenses. Lenses are offset to show each one individually. 3-5/8"w x 9-1/2"h x 9-3/4"d. Lenses not included.

#10037

#### Wall Mounted Tinted Lens Display

Display 17 lenses on a white background. Measures 16"w x 14-3/4 "h. Lenses not included.

#10030

#### Eyefull Tower Rotating Tinted Lens Display

Displays 32 lenses in only 8" of counter space. Rotating tower measures 15"h x 8" diameter. Lenses not included.

#10032

# Frame Tray / Wall Displays / Dispensing Mirrors

#### Frame Storage Trays

The perfect tray for presenting eyewear and storing extra inventory. Trays interlock for secure stacking and handling. Unique design and extra depth prevents eyewear from being crushed. Made of heavy gauge, textured white plastic.

Fifteen Pocket Frame Storage Tray 19-3/4"w x 1-5/8"h x 12-1/2"d.

#10066

**Ten Pocket Frame Storage Tray** 13-1/2"w x 1-5/8"h x 12-1/2"d.

#10067

#### Make Your Own Displays!

Eyewear Support (pkg. 50) #9004

#### **Acrylic Dispensing Mirrors**

Table top mirrors are stable, shatterproof and positioned at the optimal viewing angle. Hand held mirror is comfortably balanced. Sleek, affordable and functional.

#### Acrylic Dispensing Mirror

Single pane of mirrored acrylic. 8"w x 11"h x 5"d #10052

#### Hand Held Acrylic Mirror

Light weight, designed for comfort with a generous field of view. Will not shatter if dropped. Mirror face measures 7"w x 8"h. Overall length is 12-1/2".

#10053

#### Beveled Glass Dispensing Mirror

This exclusive design provides your patients with a tremendous field of view in a compact space. Constructed of beveled glass mounted to a shiny black acrylic background. This beautiful mirror is angled for comfortable viewing and balanced for stability. Rubber feet protect your table's surface from scratches. 9"w x 11"h x 5-1/4"d.

#10056B/2 two pack

# "Twisters" Wall Mounted Displays

#### New "Western-Eyes" Twisters Eyewear Display Line

MAXIMUM Versatility/Minimum Price

After 39 successful years of manufacturing eyewear displays for the dispensary, we've reinvented ourselves with *Twisters* eyewear displays. So innovative it was awarded US Patent #8,328,028.

Gone forever are the high prices of bulky displays, huge freight charges and displays damaged in transit.

Twisters are the erector set of eyewear displays. Create entire walls or single pedestals in moments. The support has a patented mechanism that allows Twisters to be mounted anywhere on any 4mm (5/32") diameter rod. Twisters are easily repositioned to suit aesthetics, cleaning or inventory.

The "Western-Eyes" line introduces *Twisters* in a series of kits. Each kit includes an acrylic holder, 4mm silvered rods of various lengths and a supply of *Twisters*. Unpack, assemble and enjoy! Rearrange *Twisters* at any time.

# "Western-Eyes" Twisters Display Module

This modular kit allows installation of an extended temple eyewear display virtually anywhere. Use as a single display or in multiples, to create an entire wall of eyewear. Arrange the modules in any pattern to reflect the style of your eyewear inventory and decor.

Each module consists of a pair of acrylic mounting brackets, a 24" silvered 4mm rod and 9 Twisters. Screw mount the brackets to the wall, secure the rod into the brackets and arrange the Twisters as desired along the length of the rod.

Elegant, yet inexpensive and the ultimate in versatility!

#9160

#### "Western-Eyes" Display Components

#9100 *Twisters* Eyewear Support (pkg. of 50) #9150 Acrylic Mounting Display Brackets (pair)

# "Twisters" Free-Standing Displays

#### Disk-Play Kit

Three polished acrylic disks, three silvered rods and 9 Twisters allow the creation of displays as needs dictate. Try a 4-3-2 or a 3-2-1 combination of eyewear. Easy to assemble, disassemble and rearrange. Disks measure 3" diameter x 3/8"h. Silvered rods measure 6", 9" and 12". #10080

#### Disk-Play Plus Kit

Features thick blocks of polished acrylic for an elegant look. Kit includes three round polished blocks of acrylic, three rods and 9 *Twisters*. Mix and match rod lengths and Twisters to fashion new display combinations. Easy to assemble and rearrange. Disks measure 3" diameter x 1-1/2"h. Silvered rods measure 6", 9" and 12".

#10085

# "Twisters" Free-Standing Displays

#### Triangles Display Kit

Create an interesting focal point for a countertop or window display with these concentric triangles of highly polished acrylic. Two triangles nest together to form a single display or use separately. One triangle measures 6-3/4" per side and the other 3" per side. Includes four silvered rods 3", 6", 9" and 12" and 9 Twisters.

#10110

#### Clear Rail Display Kit

A platform of polished clear acrylic holds three silvered rods of varied heights. Kit includes 9 *Twisters* that can be positioned in any direction. Acrylic base measures 15-1/2"w x 2"d x 3/8"h. Silvered rods measure 6", 9" and 12".

#10090

# Free-Standing Displays

#### Tier Stands

Tabletop favorites designed to show eyewear with temples extended or folded. Easily transform shelves, cabinets, counters and windows into interesting and functional merchandising areas. Instantly increase your display space. Clear acrylic.

One Tier	Two Tier	Three Tier	<b>Four Tier</b>
4-1/2"h	7-1/2"h	10-1/2"h	13-1/2"h
#10057	#10058	#10059	#10060

#### **Bleachers**

Your featured eyewear becomes little "spec"tators in these stands. Stepped countertop display highlights sets of eyewear. Useful for providing a high concentration of frames in a limited space. A vibrant way to beautify and expand your display area.

Bleachers I	Bleachers II	Bleachers III	Bleachers IV
3-1/2"w x 4"h x 4"d.	3-1/2"w x 4"h x 4"d.	3-1/2"w x 5"h x 6-1/2"d.	3-1/2"w x 6"h x 8"d.
#10075	#10076	#10077	#10078

#### **Terms**

There is a \$25.00 minimum merchandise order. Prices listed are for merchandise only and do not include shipping charges or tax (if applicable). Prices subject to change without notice. Prices are in US dollars.

#### Guarantee

Western Optical Supply, Inc. guarantees that you must be totally satisfied with every product you purchase or you may return it, freight prepaid in its original condition, within 10 days of receipt for a merchandise refund or credit. Please telephone our office for return authorization approval.

#### Warranty

Western Optical Supply, Inc. warrants our products to be free of defects in material and workmanship. If upon receipt of merchandise the product is found to be defective it will be replaced at no charge. After this initial period, our obligation under this warranty is limited to repair or replacement of any part or entire unit at our option for a period of one year from date of delivery, unless otherwise stated.

This warranty does not apply to normal wear. The warranty does not include cost of inconvenience, property damage, misuse, abuse, accident or similar incidents. Warranty may be voided if product is tampered with or repaired by unauthorized persons and does not apply to any item that is abused or not used for its intended purpose.
