

2WIN-S Binocular
Auto-Refractor and
Vision Analyser

VisionSC
Wearable Adaptive
Refractor

The easiest and most reliable mobile system for objective and subjective refraction tests in a few minutes.

2WIN-S

Stand-Alone
Refractometer
& Vision Analyser

- **Functions as visual analyser**, measuring both eyes at the same time
- Measures sight anomalies, refractive errors and pupil parameters
- **Ideal for challenging patients** (infants and children from 2 months of age, seniors, impaired & non-cooperative individuals)
- **Additional applications available:** CR-App, LC-App, DP-App, 66cm-App

VisionSC

Wearable or With
Brackets Adaptive
Refractor

- **Seamless script changes** provide a more accurate patient response
- Combines features of a trial frame and automated/manual phoropter
- **Increased interaction** between operator and patient during refraction
- **100% Wireless** controlled by tablet via Bluetooth
