OPTIPREMIUM

The ClearPro Series is a freeform range of lenses with various lens designs made to suit patients individual lifestyle. The lenses that comprise the ClearPro series are German designed and Australian made.

The ClearPro series with its options of 2 fitting heights of 14 and 17mm in all designs, results in a lens design which will suit any frame size selection while also providing easy adaption even for first time presbyopes.

CLEARPRO ULTIMATE

The Clearpro Ultimate is a new design that provides a wider field of view in distance, intermediate and near as compared to the Clearpro Dynamic.

CLEARPRO DYNAMIC

The Clearpro Dynamic has an optimum balance between far and near vision providing a perfect balance for general purpose requirements.

CLEARPRO FARVIEW

The Clearpro Farview design has a large far vision area ideal for the active outdoor wearer, whilst providing comfortable near vision viewing.

CLEARPRO NEARVIEW

The Clearpro Nearview design has a large near and intermediate vision area, whilst providing comfortable distance vision viewing.

CLEARPRO OFFICE

The Clearpro Office is our **occupational lens** that has been optimized for wearers which require computer or office related tasks. This lens enables the patient to walk around the office comfortably when the desired shift is selected.

Clearpro lenses are available with the following upgrades:

- *skeye* Multicoat
- Slimlite Process
- **ARMOUR** Hardcoat
- A.F.S. Process

Contact Opticare for more information about our lens upgrades.
