PREMIUM LENS SERIES

Office Near

Perform better.

Crystal-Clear Precision for Near Vision Use

Optilux Office Near enhances office eyewear with an advanced design, expanding the visual area for near distances and delivering high-resolution image quality. Tailored for extended near tasks, the optimised layout enhances horizontal peripheral vision, ensuring precise focus on close-up work. This innovative design integrates Digital Adaptation Technology (DAT) for extra-wide visual precision, Power Gradient Technology (PGT) for enhanced image quality, Digital Intelligence Technology (DAT) for a clearer, more comfortable visual experience, and finally the Intelligent Individualisation Technology (IIT) for superior visual experience all day. Elevate your workday with Optilux Office Near, where modern design meets top-tier performance for unparalleled near vision comfort.

Features

- ✓ Expansive near visual fields
- ✓ Enhanced horizontal peripheral vision
- ✓ Integrates the Power Gradient Technology (PGT) for superior image quality
- ✓ Soft design providing comfort for the wearer
- ✓ Minimal distortion, seamless adaptation

Optilux Office Near Benefits

- ✓ Enhanced ergonomic posture and natural vision
- ✓ Expansive near visual fields for generous coverage
- ✓ Clear and wide vision with precise focus
- ✓ Effortless adaptation for seamless use

Technology behind Optilux Office Near

DIT (Digital Intelligence Technology): Precision meets innovation with extraordinary optical quality and exceptionally low unwanted astigmatism.

IIT (Intelligent Individualisation Technology): The culmination of our cutting-edge technologies delivering an unparalleled optical experience, combining precision, innovation, and adaptability for wearers across diverse visual needs and ages.

DAT (Digital Adaptation Technology): Maximal precision, minimal distortion, and immediate wearer adaptation for the thinnest lenses and widest optical fields.

PGT (Power Gradient Technology): Experience brilliance in vision with advanced design optimisation, clear optics, and wide fields of view.
