Optilux Relax Benefits

- ✓ **Enhanced Comfort:** Additional power boost in the lower lens segment reduces eye strain during close-up tasks.
- ✓ **Superior Clarity:** Enjoy enhanced relief for near vision activities, surpassing standard single vision lenses.

Technology behind Optilux Relax

DIT (Digital Intelligence Technology): Precision meets innovation with extraordinary optical quality and exceptionally low unwanted astigmatism.

IIT (Intelligent Individualisation Technology): The culmination of our cutting-edge technologies delivering an unparalleled optical experience, combining precision, innovation, and adaptability for wearers across diverse visual needs and ages.

DAT (Digital Adaptation Technology): Maximal precision, minimal distortion, and immediate wearer adaptation for the thinnest lenses and widest optical fields.

PGT (Power Gradient Technology): Experience brilliance in vision with advanced design optimisation, clear optics, and wide fields of view.

Inset:	2.5 mm

Recommended for:

Optilux Relax caters to those who spend significant amounts of time in front of digital screens, such as computers, smartphones, and tablets, and who often experience eye strain and discomfort as a result. Optilux Relax is especially beneficial for professionals in digitally-intensive roles, students, and anyone who prioritises their visual well-being while engaging in near and intermediate tasks. Whether you're working, studying, or simply enjoying leisure activities, Optilux Relax ensures that you can do so comfortably and with clarity, without compromising on either aspect.
