

sunmatic *MyLife*

Advanced Photochromic Performance.

The next evolution of Opticare's photochromic lens technology, designed for everyday Australian conditions and modern lifestyles.

Now with more colour choices!

OPTICARE

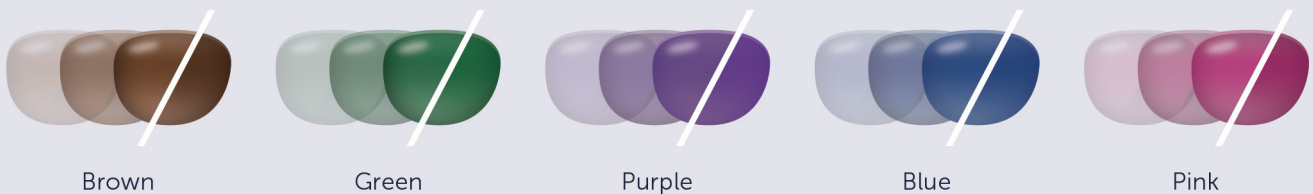

See the Difference.

What's New in Sunmatic MyLife

Sunmatic MyLife is Opticare's next-generation photochromic add-on. It is designed to deliver:

- ✓ Stronger dark state outdoors.
- ✓ Up to 40% faster-to-clear solution when moving from outdoors to indoors.
- ✓ Clearer, more neutral appearance indoors.
- ✓ Simple product range for ordering and quoting.

My Life. My Colour.

Who is Sunmatic MyLife suited for?

- ✓ Patients who move frequently between indoor and outdoor environments.
- ✓ People sensitive to brightness and glare.
- ✓ Progressive and single vision wearers seeking everyday visual comfort.
- ✓ Patients who value both performance and choice in lens colour.

Sunmatic MyLife

Key Features

Features	Details
Photochromic performance	Advanced light-responsive technology designed for consistent daily use of Australians.
Activation & fade-back	Optimised for frequent indoor–outdoor transitions.
Clarity (clear & activated)	High visual clarity in both states.
Colour options	5 colours.
UV Protection	100% protection from UVA & UVB rays up to 400 nm.
Lens Materials & Indices	Only available in 1.50 HC Plano power and 1.6 index on selected products.
Coating Compatibility	Typically supplied with hardcoat or multicoat.
Durability & Longevity	Hardcoat-protected spin coat.
Compatibility with lens designs	Fully compatible with Opticare lens designs and coatings.
Ordering and turnaround	Local lab production and direct support.
Support and service	Direct access to Opticare customer support and BDM teams.
Positioning	High-performance photochromic option within an Australian lab ecosystem.

*Performance characteristics may vary depending on prescription, lens material, and environmental conditions. Product suitability should be assessed based on individual patient needs.

Advanced Photochromatic Performance.

What stays the same

While performance and options have evolved, your workflow remains unchanged:

- ✓ Same trusted Opticare manufacturing standards
- ✓ Same ordering and fitting process
- ✓ Same support from your Opticare laboratory and BDM team

Added support to help you introduce Sunmatic MyLife

Opticare is also providing additional practice support to help you confidently introduce Sunmatic MyLife to suitable patients. This includes:

- ✓ Practice-ready marketing materials
- ✓ Dispensing and lens trial kit
- ✓ Ongoing education and training
- ✓ Lab and BDM support
